(Filed August 11, 2016)

U 39 E

**PACIFIC GAS AND ELECTRIC COMPANY'S (U 39 E)
PROOF OF RULE 3.2(e) COMPLIANCE**

Pacific Gas and Electric Company (PG&E) hereby provides proof of compliance with Rule 3.2(e) of the California Public Utilities Commission's Rules of Practice and Procedure:

Mailing of notice to State, County and City officials

PG&E met the requirement specified in Rule 3.2(b) by serving notice to State, County and City officials within its service area within 20 days of the date of its application filing. PG&E mailed notice of its application to state, county and city officials within its service area, listed on the current Roster published by the Secretary of State, on August 25, 2016. (See Attachment A)

Publication

PG&E met the requirement specified in Rule 3.2(c) by twice publishing notice of its application in newspapers of general circulation within its service area. The first notice was published within 20 days of the date of its application filing and appeared in newspapers on or before August 26, 2016. During the 20-day publication period, PG&E found an error in the initial notice, immediately made corrections, and made arrangements to have the corrected notice published. Two publications were unable to run the corrected notice during the 20-day

publication period, but did run the corrected notice on September 2, 2016 (Dispatch and Mariposa Gazette). Three publications were able to exchange the incorrect notice with the corrected notice during the initial 20-day publication period and only ran the corrected notice (Amador Ledger, Mountain Messenger, and Tracy Press). (See Attachment B)

Mailing of Bill Insert to All Customers

PG&E met the notice requirement specified in Rule 3.2(d) by mailing a bill insert describing the rate increase associated with the above-referenced Application to affected customers within 45 days of the date of its application filing. Mailing of the insert was completed on September 22, 2016. (See Attachment C)

In addition, customers who receive electronic bills from PG&E received the insert in Attachment C as part of their bill packages. Circulation of this bill insert in electronic bills began on or before August 19, 2016.

Respectfully Submitted,

WILLIAM MANHEIM
CHARLES MIDDLEKAUFF
MARY GANDESBERY
GRADY MATHAI-JACKSON

ATTACHMENT A

**DECLARATION OF MAILING OF NOTIFICATION OF
PACIFIC GAS AND ELECTRIC COMPANY'S APPLICATION
REQUESTING TO INCREASE RATES FOR THE RETIREMENT
OF DIABLO CANYON (A.16-08-006) TO STATE, COUNTY AND
CITY OFFICIALS**

I, Karen Alcantara, an employee of Pacific Gas and Electric Company, (the Company) state that I am a citizen of the United States and employed in the City and County of San Francisco, State of California; that I am over the age of eighteen (18) years and not a party to the within cause; that my business address is 77 Beale Street, San Francisco, California; and that a printed copy of the attached Notification of Pacific Gas and Electric Company's Application Requesting to Increase Rates for the Retirement of Diablo Canyon, Application number 16-08-006, was sent first class postage paid to State, County and City Officials located within the Company's service area on August 25, 2016.

I declare under penalty of perjury that the foregoing is true and correct.

Dated, September 16, 2016, at San Francisco, California.

KAREN ALCANTARA

August 25, 2016

TO: STATE, CITY AND LOCAL OFFICIALS

NOTIFICATION OF PACIFIC GAS AND ELECTRIC COMPANY'S APPLICATION REQUESTING TO INCREASE RATES FOR THE RETIREMENT OF DIABLO CANYON (A.16-08-006)

Background

On August 11, 2016, Pacific Gas and Electric Company (PG&E) filed an application with the California Public Utilities Commission (CPUC) requesting approval of a Joint Proposal that would phase out PG&E's production of nuclear power at Diablo Canyon Power Plant (DCPP) at the end of its current operating license period in 2024 and 2025. This request will also allow PG&E to increase its investment in energy efficiency, renewables and storage beyond the current state 2030 mandates.

The parties to the Joint Proposal include: PG&E, International Brotherhood of Electrical Workers Local 1245, Coalition of California Utility Employees, Friends of the Earth, Natural Resources Defense Council, Environment California and Alliance for Nuclear Responsibility.

The proposal recognizes that California's recently implemented energy policies, along with several other factors, will significantly reduce the need for Diablo Canyon's electricity output by 2025. The Joint Proposal would replace power produced by two nuclear reactors at the Diablo Canyon Power Plant with a cost-effective, greenhouse gas free portfolio of energy efficiency, renewables and energy storage. This proposal will also include a PG&E commitment to a 55 percent renewable energy target in 2031, which is five percentage points higher than the state's 2030 mandate.

The Joint Proposal would increase total system rates by 1.6 percent in the near term. However, PG&E does not anticipate a long-term increase in customer rates as a result of the proposal. PG&E believes relicensing and operating DCPP through 2044 would have a higher overall cost than the Joint Proposal. Additional factors affecting this rate projection include lower demand, declining costs for renewable power and the potential for higher renewable integration costs if DCPP is relicensed.

If approved, the costs would be \$1.766 billion and would be collected over an eight year time period. Included in this application is an increase to annual nuclear decommissioning revenue requirements of \$59 million, an increase in annual generation revenue requirements of \$7 million over the period 2018–2025, and an annual energy efficiency revenue requirement of \$187 million over the period 2019–2025.

The increased revenue requested in this filing will support the following activities:

- Energy efficiency projects to reduce 2,000 gigawatt hours in electricity demand across PG&E's service territory by 2024.
- The Diablo Canyon Employee Retention and Employee Retraining Programs to ensure the continued safe and reliable operation of the plant through the end of its licensed life.
- The Community Impacts Mitigation Payments to San Luis Obispo County to offset the loss of property tax revenue over the remaining nine years of plant operation.
- PG&E's formal termination of its license renewal application allowing the recovery of paid costs associated with previous license renewal activities.

How will PG&E's application affect me?

Most of PG&E's customers are bundled customers which receive electricity (generation), transmission and distribution service from PG&E. For the year 2021, the year with the greatest revenue requirement impact as a result of this application, the forecasted electric revenue requirement increase is \$253 million. PG&E estimates that the requested increase in electric revenues would be distributed as shown in the table included in a bill insert announcing this filing that was sent directly to customers in the September 2016 billing cycle.

If approved, PG&E's request would increase electric rates for customers who receive electric generation and distribution services from PG&E. For a typical residential Non-CARE customer using 500 kWh per month the rate would increase from \$96.94 to \$98.48 or 1.6 percent. Individual customer bills may vary.

How will PG&E's application affect non-bundled customers?

Direct Access (DA) and Community Choice Aggregation (CCA) customers purchase electricity from another provider and receive electric transmission and distribution services from PG&E. The net impact of PG&E's application on DA and CCA customers would be \$37.8 million, or an average decrease of 3.2 percent.

Departing Load (DL) customers do not receive electric generation, transmission or distribution services from PG&E. However, they are required to pay certain charges as required by law or CPUC decision. The net impact on DL customers would be \$5 million, or an average increase of 15.5 percent.

How do I find out more about PG&E's proposals?

If you have questions about PG&E's filing, please contact PG&E at **1-800-743-5000**. For TDD/TTY (speech-hearing impaired), call **1-800-652-4712**. **Para más detalles llame al 1-800-660-6789 • 詳情請致電 1-800-893-9555**. If you would like a copy of PG&E's filing and exhibits, please write to PG&E at the address below:

Pacific Gas and Electric Company
Diablo Canyon Retirement (A.16-08-006)
P.O. Box 7442
San Francisco, CA 94120

A copy of PG&E's filing and exhibits are also available for review at the CPUC's Central Files Office by appointment only. For more information, contact aljcentralfilesid@cpuc.ca.gov or **1-415-703-2045**. PG&E's application (without exhibits) is available on the CPUC's website at www.cpuc.ca.gov/pao.

CPUC process

This application will be assigned to an Administrative Law Judge (Judge) who will determine how to receive evidence and other related documents necessary for the CPUC to establish a record upon which to base its decision. Evidentiary hearings may be held where parties will present their testimony and may be subject to cross-examination by other parties. These evidentiary hearings are open to the public, but only those who are formal parties in the case can participate.

After considering all proposals and evidence presented during the hearings, the assigned Judge will issue a proposed decision which may adopt PG&E's proposal, modify it or deny it. Any of the five CPUC Commissioners may sponsor an alternate decision. The proposed decision, and any alternate decisions, will be discussed and voted upon at a scheduled CPUC Voting Meeting.

The Office of Ratepayer Advocates (ORA) may review this application. ORA is the independent consumer advocate within the CPUC with a legislative mandate to represent investor-owned utility customers to obtain the lowest possible rate for service consistent with reliable and safe service levels. ORA has a multi-disciplinary staff with expertise in economics, finance, accounting and engineering. For more information about ORA, please call **1-415-703-1584**, email ora@cpuc.ca.gov or visit ORA's website at www.ora.ca.gov.

Stay informed

If you would like to follow this proceeding, or any other issue before the CPUC, you may use the CPUC's free subscription service. Sign up at: <http://subscribecpuc.cpuc.ca.gov/>. If you would like to learn how you can participate in the proceeding, if you have informal comments about the application, or questions about the CPUC processes, you may access the CPUC's Public Advisor Office (PAO) webpage at <http://consumers.cpuc.ca.gov/pao/>. You may also contact the PAO as follows: **Email: public.advisor@cpuc.ca.gov**

Mail: CPUC
Public Advisor's Office
505 Van Ness Avenue, Room 2103
San Francisco, CA 94102
Call: **1-866-849-8390** (toll-free) or **1-415-703-2074**
TTY: **1-866-836-7825** (toll-free) or **1-415-703-5282**

If you are writing or emailing the Public Advisor's Office, please include the proceeding number (Diablo Canyon, A.16-08-006). All comments will be circulated to the Commissioners, the assigned Judge and appropriate CPUC staff, and will become public record.

In accordance with Rule 3.2(b), Applicant mailed a notice to the following, stating in general terms its proposed change in rates.

ATTACHMENT B

**DECLARATION OF PUBLICATION OF NOTIFICATION OF PACIFIC GAS
AND ELECTRIC COMPANY'S APPLICATION REQUESTING TO INCREASE
RATES FOR THE RETIREMENT OF DIABLO CANYON (A.16-08-006)**

I, ERICA KOZOCAS declare:

I am a Senior Production/Project Manager employed by Brainchild Creative, at 12 Geary Street, San Francisco, California. I am responsible for working with Karen Alcantara, Sr. Paralegal, and/or Charles Herrick, Contract Marketing Strategist, (Alcantara/Herrick) of Pacific Gas and Electric Company (the Company) to prepare the attached Notification of Pacific Gas and Electric Company's Application Requesting to Increase Rates for the Retirement of Diablo Canyon, Application number 16-08-006 (Notice V1), and to schedule the earliest possible publication dates with the 53 newspapers in the Company's service territory. When Alcantara/Herrick of the Company contacted me concerning the need to publish Notice V1, I drafted the publishing schedule for the 53 newspapers (also attached herewith). I forwarded the attached schedule of publication dates to Alcantara/Herrick and was notified the dates were acceptable. I then contacted the 53 newspapers to reserve the publication dates. Prior to August 26, 2016, Alcantara/Herrick notified me of an error in Notice V1 and advised the attached updated version of the Notification of Pacific Gas and Electric Company's Application Requesting to Increase Rates for the Retirement of Diablo Canyon (Notice V2) would need to be published. I drafted an updated publishing schedule for the 53 newspapers (also attached herewith), forwarded the attached schedule of publication dates to Alcantara/Herrick and was notified the dates were acceptable. I then contacted the 53 newspapers to reserve the second publication dates. I receive the proofs of both

publications from each of the 53 newspapers within 10 days after publication, which I collect and then download to the Company's Box account for electronic storage.

I declare under penalty of perjury that the foregoing is true and correct.

In San Francisco, California, this 19 day of September 2016.

ERICA KOZOCAS

NOTIFICATION OF PACIFIC GAS AND ELECTRIC COMPANY'S APPLICATION REQUESTING TO INCREASE RATES FOR THE RETIREMENT OF DIABLO CANYON (A.16-08-006)

BACKGROUND

On August 11, 2016, Pacific Gas and Electric Company (PG&E) filed an application with the California Public Utilities Commission (CPUC) requesting approval of a Joint Proposal that would phase out PG&E's production of nuclear power at Diablo Canyon Power Plant (DCPP) at the end of its current operating license period in 2024 and 2025. This request will also allow PG&E to increase its investment in energy efficiency, renewables and storage beyond the current state 2030 mandates.

The parties to the Joint Proposal include: PG&E, International Brotherhood of Electrical Workers Local 1245, Coalition of California Utility Employees, Friends of the Earth, Natural Resources Defense Council, Environment California and Alliance for Nuclear Responsibility.

The proposal recognizes that California's recently implemented energy policies, along with several other factors, will significantly reduce the need for Diablo Canyon's electricity output by 2025. The Joint Proposal would replace power produced by two nuclear reactors at the Diablo Canyon Power Plant with a cost-effective, greenhouse gas free portfolio of energy efficiency, renewables and energy storage. This proposal will also include a PG&E commitment to a 55 percent renewable energy target in 2031, which is five percentage points higher than the state's 2030 mandate.

The Joint Proposal would increase total system rates by 1.6 percent in the near term. However, PG&E does not anticipate a long-term increase in customer rates as a result of the proposal. PG&E believes relicensing and operating DCPP through 2044 would have a higher overall cost than the Joint Proposal. Additional factors affecting this rate projection include lower demand, declining costs for renewable power and the potential for higher renewable integration costs if DCPP is relicensed.

If approved, the costs would be \$1.766 billion and would be collected over an eight year time period. Included in this application is an increase to annual nuclear decommissioning revenue requirements of \$59 million, an increase in annual generation revenue requirements of \$7 million over the period 2018-2025, and an annual energy efficiency revenue requirement of \$187 million over the period 2019-2025.

The increased revenue requested in this filing will support the following activities:

- Energy efficiency projects to reduce 2,000 gigawatt hours in electricity demand across PG&E's service territory by 2024.
- The Diablo Canyon Employee Retention and Employee Retraining Programs to ensure the continued safe and reliable operation of the plant through the end of its licensed life.
- The Community Impacts Mitigation Payments to San Luis Obispo County to offset the loss of property tax revenue over the remaining nine years of plant operation.
- PG&E's formal termination of its license renewal application allowing the recovery of paid costs associated with previous license renewal activities.

HOW WILL PG&E'S APPLICATION AFFECT ME?

Most of PG&E's customers are bundled customers which receive electricity (generation), transmission and distribution service from PG&E. For the year 2021, the year with the greatest revenue requirement impact as a result of this application, the forecasted electric revenue requirement increase is \$253 million. PG&E estimates that the requested increase in electric revenues would be distributed as shown in the table included in a bill insert announcing this filing that was sent directly to customers in the September 2016 billing cycle.

If approved, PG&E's request would increase electric rates for customers who receive electric generation and distribution services from PG&E. For a typical residential Non-CARE customer using 500 kWh per month the rate would increase from \$96.94 to \$98.48 or 1.6 percent. Individual customer bills may vary.

HOW WILL PG&E'S APPLICATION AFFECT NON-BUNDLED CUSTOMERS?

Direct Access (DA) and Community Choice Aggregation (CCA) customers purchase electricity from another provider and receive electric transmission and distribution services from PG&E. The net impact of PG&E's application on DA and CCA customers would be \$37.6 million, or an average decrease of 3.2 percent.

Departing Load (DL) customers do not receive electric generation, transmission or distribution services from PG&E. However, they are required to pay certain charges as required by law or CPUC decision. The net impact on DL customers would be \$4.9 million, or an average increase of 15.4 percent.

HOW DO I FIND OUT MORE ABOUT PG&E'S PROPOSALS?

If you have questions about PG&E's filing, please contact PG&E at 1-800-743-5000. For TDD/TTY (speech-hearing impaired), call 1-800-652-4712. If you would like a copy of PG&E's filing and exhibits, please write to PG&E at the address below:

Pacific Gas and Electric Company
Diablo Canyon Retirement (A.16-08-006)
P.O. Box 7442
San Francisco, CA 94120

A copy of PG&E's filing and exhibits are also available for review at the CPUC's Central Files Office by appointment only. For more information, contact ajcentralfilesid@cpuc.ca.gov or 1-415-703-2045. PG&E's application (without exhibits) is available on the CPUC's website at www.cpuc.ca.gov/pao.

CPUC PROCESS

This application will be assigned to an Administrative Law Judge (Judge) who will determine how to receive evidence and other related documents necessary for the CPUC to establish a record upon which to base its decision. Evidentiary hearings may be held where parties will present their testimony and may be subject to cross-examination by other parties. These evidentiary hearings are open to the public, but only those who are formal parties in the case can participate.

After considering all proposals and evidence presented during the hearings, the assigned Judge will issue a proposed decision which may adopt PG&E's proposal, modify it or deny it. Any of the five CPUC Commissioners may sponsor an alternate decision. The proposed decision, and any alternate decisions, will be discussed and voted upon at a scheduled CPUC Voting Meeting.

The Office of Ratepayer Advocates (ORA) may review this application. ORA is the independent consumer advocate within the CPUC with a legislative mandate to represent investor-owned utility customers to obtain the lowest possible rate for service consistent with reliable and safe service levels. ORA has a multi-disciplinary staff with expertise in economics, finance, accounting and engineering. For more information about ORA, please call 1-415-703-1584, email ora@cpuc.ca.gov or visit ORA's website at www.ora.ca.gov.

STAY INFORMED

If you would like to follow this proceeding, or any other issue before the CPUC, you may use the CPUC's free subscription service. Sign up at: <http://subscribe.puc.ca.gov/>. If you would like to learn how you can participate in the proceeding, if you have informal comments about the application, or questions about the CPUC processes, you may access the CPUC's Public Advisor Office (PAO) webpage at <http://consumers.cpuc.ca.gov/pao/>. You may also contact the PAO as follows: Email: public.advisor@cpuc.ca.gov

Mail: CPUC

Public Advisor's Office

**NOTIFICATION OF PACIFIC GAS AND ELECTRIC COMPANY'S APPLICATION
REQUESTING TO INCREASE RATES FOR THE RETIREMENT OF DIABLO
CANYON (A.16-08-006)**

BACKGROUND

On August 11, 2016, Pacific Gas and Electric Company (PG&E) filed an application with the California Public Utilities Commission (CPUC) requesting approval of a Joint Proposal that would phase out PG&E's production of nuclear power at Diablo Canyon Power Plant (DCPP) at the end of its current operating license period in 2024 and 2025. This request will also allow PG&E to increase its investment in energy efficiency, renewables and storage beyond the current state 2030 mandates.

The parties to the Joint Proposal include: PG&E, International Brotherhood of Electrical Workers Local 1245, Coalition of California Utility Employees, Friends of the Earth, Natural Resources Defense Council, Environment California and Alliance for Nuclear Responsibility.

The proposal recognizes that California's recently implemented energy policies, along with several other factors, will significantly reduce the need for Diablo Canyon's electricity output by 2025. The Joint Proposal would replace power produced by two nuclear reactors at the Diablo Canyon Power Plant with a cost-effective, greenhouse gas free portfolio of energy efficiency, renewables and energy storage. This proposal will also include a PG&E commitment to a 55 percent renewable energy target in 2031, which is five percentage points higher than the state's 2030 mandate.

The Joint Proposal would increase total system rates by 1.6 percent in the near term. However, PG&E does not anticipate a long-term increase in customer rates as a result of the proposal. PG&E believes relicensing and operating DCPP through 2044 would have a higher overall cost than the Joint Proposal. Additional factors affecting this rate projection include lower demand, declining costs for renewable power and the potential for higher renewable integration costs if DCPP is relicensed.

If approved, the costs would be \$1.766 billion and would be collected over an eight year time period. Included in this application is an increase to annual nuclear decommissioning revenue requirements of \$59 million, an increase in annual generation revenue requirements of \$7 million over the period 2018–2025, and an annual energy efficiency revenue requirement of \$187 million over the period 2019–2025.

The increased revenue requested in this filing will support the following activities:

- Energy efficiency projects to reduce 2,000 gigawatt hours in electricity demand across PG&E's service territory by 2024.
- The Diablo Canyon Employee Retention and Employee Retraining Programs to ensure the continued safe and reliable operation of the plant through the end of its licensed life.
- The Community Impacts Mitigation Payments to San Luis Obispo County to offset the loss of property tax revenue over the remaining nine years of plant operation.
- PG&E's formal termination of its license renewal application allowing the recovery of paid costs associated with previous license renewal activities.

HOW WILL PG&E'S APPLICATION AFFECT ME?

Most of PG&E's customers are bundled customers which receive electricity (generation), transmission and distribution service from PG&E. For the year 2021, the year with the greatest revenue requirement impact as a result of this application, the forecasted electric revenue requirement increase is \$253 million. PG&E estimates that the requested increase in electric revenues would be distributed as shown in the table included in a bill insert announcing this filing that was sent directly to customers in the September 2016 billing cycle.

If approved, PG&E's request would increase electric rates for customers who receive electric generation and distribution services from PG&E. For a typical residential Non-CARE customer using 500 kWh per month the rate would increase from \$96.94 to \$98.48 or 1.6 percent. Individual customer bills may vary.

HOW WILL PG&E'S APPLICATION AFFECT NON-BUNDLED CUSTOMERS?

Direct Access (DA) and Community Choice Aggregation (CCA) customers purchase electricity from another provider and receive electric transmission and distribution services from PG&E. The net impact of PG&E's application on DA and CCA customers would be \$37.8 million, or an average decrease of 3.2 percent.

Departing Load (DL) customers do not receive electric generation, transmission or distribution services from PG&E. However, they are required to pay certain charges as required by law or CPUC decision. The net impact on DL customers would be \$5 million, or an average increase of 15.5 percent.

HOW DO I FIND OUT MORE ABOUT PG&E'S PROPOSALS?

If you have questions about PG&E's filing, please contact PG&E at 1-800-743-5000. For TDD/TTY (speech-hearing impaired), call 1-800-652-4712. If you would like a copy of PG&E's filing and exhibits, please write to PG&E at the address below:

ATTACHMENT C

DECLARATION OF MAILING NOTICE OF APPLICATION FILING TO CUSTOMERS

I, Tim M. Trujillo, an employee of Pacific Gas and Electric Company, state that I am a citizen of the United States and employed in the City of West Sacramento, County of Yolo, State of California; that I am over the age of eighteen (18) years and not a party to the within cause; that my business address is 885 Embarcadero Drive, West Sacramento, California; and that a printed copy of the attached Notification of Pacific Gas and Electric Company's Application Requesting to Increase Rates for the Retirement of Diablo Canyon, Application No. 16-08-006, was enclosed with customer bills during the period beginning August 24, 2016 and ending September 22, 2016.

I declare under penalty of perjury that the foregoing is true and correct.

Dated, September 26, 2016, at West Sacramento, California.

TIM M. TRUJILLO

The Office of Ratepayer Advocates (ORA) may review this application. ORA is the independent consumer advocate within the CPUC with a legislative mandate to represent investor-owned utility customers to obtain the lowest possible rate for service consistent with reliable and safe service levels. ORA has a multi-disciplinary staff with expertise in economics, finance, accounting and engineering. For more information about ORA, please call 1-415-703-1584, email ora@cpuc.ca.gov or visit ORA's website at www.ora.ca.gov.

Stay informed

If you would like to follow this proceeding, or any other issue before the CPUC, you may use the CPUC's free subscription service. Sign up at: <http://subscribe.puc.ca.gov/>. If you would like to learn how you can participate in the proceeding, if you have informal comments about the application, or questions about the CPUC processes, you may access the CPUC's Public Advisor Office (PAO) webpage at <http://consumers.puc.ca.gov/pao/>.

You may also contact the PAO as follows:

NOTIFICATION OF PACIFIC GAS AND ELECTRIC COMPANY'S APPLICATION REQUESTING TO INCREASE RATES FOR THE RETIREMENT OF DIABLO CANYON (A.16-08-006)

Background

On August 11, 2016, Pacific Gas and Electric Company (PG&E) filed an application with the California Public Utilities Commission (CPUC) requesting approval of a Joint Proposal that would phase out PG&E's production of nuclear power at Diablo Canyon Power Plant (DCPP) at the end of its current operating license period in 2024 and 2025. This request will also allow PG&E to increase its investment in energy efficiency, renewables and storage beyond the current state 2030 mandates.

The parties to the Joint Proposal include: PG&E, International Brotherhood of Electrical Workers Local 1245, Coalition of California Utility Employees, Friends of the Earth, Natural Resources Defense Council, Environment California and Alliance for Nuclear Responsibility.

The proposal recognizes that California's recently implemented energy policies, along with several other factors, will significantly reduce the need for Diablo Canyon's electricity output by 2025.

The Joint Proposal would replace power produced by two nuclear reactors at the Diablo Canyon Power Plant with a cost-effective, greenhouse gas free portfolio of energy efficiency, renewables and energy storage. This proposal will also include a PG&E commitment to a 55 percent renewable energy target in 2031, which is five percentage points higher than the state's 2030 mandate.

The Joint Proposal would increase total system rates by 1.6 percent in the near term. However, PG&E does not anticipate a long-term increase in customer rates as a result of the proposal. PG&E believes relicensing and operating DCPP through 2044 would have a higher overall cost than the Joint Proposal. Additional factors affecting this rate projection include lower demand, declining costs for renewable power and the potential for higher renewable integration costs if DCPP is relicensed.

If approved, the costs would be \$1.766 billion and would be collected over an eight year time period. Included in this application is an increase to annual nuclear decommissioning revenue requirements of \$59 million, an increase in annual generation revenue requirements of \$7 million over the period 2018–2025, and an annual energy efficiency revenue requirement of \$187 million over the period 2019–2025.

continued on inside

The increased revenue requested in this filing will support the following activities:

- Energy efficiency projects to reduce 2,000 gigawatt hours in electricity demand across PG&E's service territory by 2024.
- The Diablo Canyon Employee Retention and Employee Retraining Programs to ensure the continued safe and reliable operation of the plant through the end of its licensed life.
- The Community Impacts Mitigation Payments to San Luis Obispo County to offset the loss of property tax revenue over the remaining nine years of plant operation.
- PG&E's formal termination of its license renewal application allowing the recovery of paid costs associated with previous license renewal activities.

How will PG&E's application affect me?

Most of PG&E's customers are bundled customers which receive electricity (generation), transmission and distribution service from PG&E. For the year 2021, the year with the greatest revenue requirement impact as a result of this application, the forecasted electric revenue requirement increase is \$253 million. PG&E estimates that the requested increase in electric revenues would be distributed as shown in the table below.

PROPOSED ELECTRIC RATE CHANGES

Customer Class	8/1/2016 Present Average Rate (¢/kWh)	1/1/2021 Proposed Average Rate (¢/kWh)	Average Rate Change (¢/kWh)	Percentage Change
Bundled Service				
Residential	19.47	19.77	0.30	1.6%
Small Commercial	22.38	22.74	0.36	1.6%
Medium Commercial	19.66	19.99	0.32	1.7%
Large Commercial	16.81	17.11	0.30	1.8%
Streetlights	21.42	21.77	0.35	1.7%
Standby	16.34	16.61	0.28	1.7%
Agriculture	17.00	17.27	0.27	1.6%
Industrial	13.35	13.58	0.23	1.8%
Total System Rate Change	18.22	18.52	0.30	1.6%

If approved, PG&E's request would increase electric rates for customers who receive electric generation and distribution services from PG&E. For a typical residential Non-CARE customer using 500 kWh per month the rate would increase from \$96.94 to \$98.48 or 1.6 percent. Individual customer bills may vary.

How will PG&E's application affect non-bundled customers?

Direct Access (DA) and Community Choice Aggregation (CCA) customers purchase electricity from another provider and receive electric transmission and distribution services from PG&E. The net impact of PG&E's application on DA and CCA customers would be \$37.8 million, or an average increase of 3.2 percent.

Departing Load (DL) customers do not receive electric generation, transmission or distribution services from PG&E. However, they are required to pay certain charges as required by law or CPUC decision. The net impact on DL customers would be \$5 million, or an average increase of 15.5 percent.

How do I find out more about PG&E's proposals?

If you have questions about PG&E's filing, please contact PG&E at 1-800-743-5000. For TDD/TTY (speech-hearing impaired), call 1-800-652-4712. If you would like a copy of PG&E's filing and exhibits, please write to PG&E at the address below:

Pacific Gas and Electric Company
Diablo Canyon Retirement (A.16-08-006)
P.O. Box 7442
San Francisco, CA 94120

A copy of PG&E's filing and exhibits are also available for review at the CPUC's Central Files Office by appointment only. For more information, contact aljcentralfilesid@cpuc.ca.gov or 1-415-703-2045. PG&E's application (without exhibits) is available on the CPUC's website at www.cpuc.ca.gov/pao.

CPUC process

This application will be assigned to an Administrative Law Judge (Judge) who will determine how to receive evidence and other related documents necessary for the CPUC to establish a record upon which to base its decision. Evidentiary hearings may be held where parties will present their testimony and may be subject to cross-examination by other parties. These evidentiary hearings are open to the public, but only those who are formal parties in the case can participate.

After considering all proposals and evidence presented during the hearings, the assigned Judge will issue a proposed decision which may adopt PG&E's proposal, modify it or deny it. Any of the five CPUC Commissioners may sponsor an alternate decision. The proposed decision, and any alternate decisions, will be discussed and voted upon at a scheduled CPUC Voting Meeting.
